Community Development Room

8:00 Call to Order

The subject of this meeting will be to discuss the progress made on the Selectmen's goals for the Subcommittee for 2022. Our committee was tasked with tracking the hookups to the water system on Route 28. A mechanism is now in place to track this information and Alex will give us an update and the statistics.

In addition, we will be discussing the traffic conditions on Route 111 and if there are actions, we can take to encourage the New Hampshire Department of Transportation to initiate the traffic study that was supposed to be conducted by TY Lynn for the portion of Route 111 from I-93 to Route 128 in Windham.
