**HIGHWAY SAFETY MEETING**

**August 17, 2022**

**Attendance:** Mike Caron, Tom McPherson, Dennis Senibaldi, Bob Coole, Tommy Sharpe and Jack Cartland. Mike Geha was absent. Meeting began at 9:35 am at Windham Fire Department.

**PLANNING BOARD PLANS**

**NONE RECIEVED**

**HIGHWAY SAFETY ISSUES**

**SAFETY CONCERNS – LONDON BRIDGE ROAD**

The Police Department requested Highway Safety Committee discussion regarding installation of caution signs in area between 17 and 15 London Bridge Road where there have been several motor vehicle accidents. Chief Caron reported that the road, although clearly posted with 30 MPH speed limit signs, in the southbound direction toward 17 and 15 London Bridge Road, is a long stretch of downhill road where vehicle speeds tend to increase. At the bottom of the hill (near 17 and 15 London Bridge Road), the road curves to the left, leaving potentially distracted drivers little time to react to the change in road direction. Chief McPherson made a motion to recommend that 3 chevrons and a warning arrow sign be posted on the southbound side of the road prior to 17 and 15 London Bridge Road. Tommy Sharpe seconded. Passed unanimously.

No other information came before the committee and the meeting was adjourned at 9:50 am
