

TOWN OF WINDHAM, NEW HAMPSHIRE

3 NORTH LOWELL ROAD, WINDHAM NH 03087

September 20, 2022

PRESS RELEASE

It has come to our attention that there is some concern regarding the difference in the results between the preliminary results compared to the official results of the primary election on September 13, 2022.

Any changes between the two sets of numbers can be accounted for by the continuation of the reconciliation process which involves the review of the marked checklist, hand tally sheets, write in tally sheets, new voter registration, and checking the absentee ballot report along with various supporting spread sheets. The reconciliation process is a common, complex process that is performed not only in Windham, but all New Hampshire communities.

All ballots were sealed and secured in their boxes on election night. The ballots were escorted by the police to a secure holding facility.
