

Town of Windham, NH

Satellite Broadband Service

This map displays broadband availability based on data submitted to the NH Broadband Mapping & Planning Program as of **September 2014**.

Satellite Broadband Availability

- Service Available
- Service Not Available

Map Notes:

Service providers submitted data to the NH Broadband Mapping & Planning Program (NHBMPP) in a range of geographies, including addresses, road segments, census blocks, census tracts, etc. For mapping purposes, all data are aggregated and displayed at the census block level. A census block is mapped as "served" if service is delivered to any part of the block.

The GRANIT System at the University of New Hampshire is responsible for the management of the inventory and conducts updates to these data every 6 months.
