Follow Nesmith Library pages on [Facebook](#), [Twitter](#), and [Instagram!](#)

Today's world as we all know is a hectic, chaotic place, full of work, sports, learning, and leisure. While the past hundred years or so was mostly about reaching the place we are now, it came at a cost. How well do you know your local government? I realize that most of you simply do not have the time to learn more. We are getting kids to school, practice, our self to work, and the mundane chores of everyday living take precedence. Happily, the digital age is giving us back the opportunity to engage with our local government and participate in a meaningful way with the leaders of our community, to understand and influence the direction it takes into the future. So share this with your family, neighbors, friends, and ask them to take the time to find out more, and become a part of Windham's Connected, Informed, OnLine Community.
